Transforming the skill landscape

ABOUT ISBF

ISBF offers local teaching support for selected University of London programmes, with academic direction provided by the London School of Economics and Political Science (LSE).

ISBF × NSDC SKILL CERTIFICATION PROGRAMMES

4	4 MONTHS	30 HOURS
Programmes	Each programme	Each programme

Explore four focused learning pathways designed to connect subject knowledge with practical projects and applications.

- Artificial Intelligence & Emerging Technologies
- Financial Services & Banking
- Entrepreneurship & Business Management
- Social Media Marketing

Fee: ₹9000 per programme

Why choose these programmes?

- Practical, subject-focused learning
- Applied projects and portfolio outputs
- Explore skills relevant to evolving industries
- Learning delivered at your campus by ISBF faculty

Learning experience

The proposed model is campus-based delivery at the partner institution by ISBF faculty, supported by structured curriculum and assessment. The specific statement that the teaching faculty are LSE faculty should be published only after their roles and the wording have been formally confirmed.

Key Outcomes

- Development of strong analytical, digital, and professional skills
- Enhanced employability and career readiness
- Career pathways across finance, consulting, analytics, and business sectors
- Opportunities for higher education progression in India and internationally

For partner institutions

Institutions can discuss campus-based delivery, cohort planning, schedules, learner coordination and assessment arrangements with ISBF.
